

Super Me — Geography

Useful Vocabulary

Human features—things that have been built by people, for example houses and shops.

Physical features—natural things in the world, for example, the sea, weather, forests.

Weather forecast—this tells us what the weather will be over the next few days.

Meteorologist—a scientist who studies the weather.

Map— drawings that help us to find out where we are going.

Symbols— these show what different things can be found in an area.

Where is Braintree? Is it a town, city or village?

Braintree is in Essex. It is a town as it is bigger than a village, but smaller than a city. It has lots of houses and shops. There are schools and a town hall, and there is a swimming pool and cinema too. Braintree has some churches too.

Why do we use maps?

Maps help us to find our way around the world, or in our local area. There are lots of different types of maps and they all look different, but do the same job. We can use maps on computers, in books, or on a mobile phone to help us find certain places.

Aerial Photograph

A photograph taken from above looking down.

What are the 4 countries in the UK? What are their capital cities?
